PROFESSIONAL SUMMARY

.NET Developer with 4+ years of experience building scalable, high-performance web applications using C#, ASP.NET, ASP.NET MVC and ASP.NET Core. Skilled in developing secure RESTful APIs, implementing complex business logic and writing optimized SQL Server queries, stored procedures, views and functions. Worked on HISTree, a product-based healthcare application, delivering modules such as Front Office, Billing, Emergency, IP Billing and ADT, and built 2 websites with ASP.NET Core (Zamzam Enterprises, TechArticle). Works in Agile/Scrum teams with QA, product and business stakeholders.

TECHNICAL SKILLS

Languages: C#, JavaScript, SQL, HTML, CSS
Backend: ASP.NET, ASP.NET MVC, ASP.NET Core, ASP.NET Core Web API, RESTful APIs, Entity Framework Core, ADO.NET, Node.js
Frontend: React, Angular, Next.js, Redux, jQuery, JavaScript
Database: SQL Server, MongoDB, Stored Procedures, Views, Functions, Query Optimization
Integration: REST API Integration, JWT Authentication, Razorpay Payment Gateway
Tools: Git, GitHub, Postman, Visual Studio, IIS, Netlify
Practices: Agile/Scrum, SDLC, Debugging, Code Optimization, Clean Code, Production Support
AI & Product: AI-powered features, SaaS product development, automated workflows
Soft Skills: Team Collaboration, Problem Solving, Communication in English, Ownership and Accountability, Adaptability

WORK EXPERIENCE

Software Developer | *Aug 2022 – Present*

Triotree Technology Pvt. Ltd., Noida, Uttar Pradesh, India

- Developed and maintained healthcare software applications using ASP.NET, ASP.NET MVC, C#, SQL Server, JavaScript and jQuery over 4 years.
- Worked on HISTree, a product-based healthcare application, contributing to modules including Front Office, Billing, Emergency, IP Billing, ADT, OPD, IPD, Screening, GCD, Reports and Patient Management.
- Designed and implemented business logic, validations and workflows aligned with real-time healthcare processes.
- Created and optimized SQL Server queries, stored procedures, views and functions to improve application performance.
- Built responsive user interfaces with HTML, CSS, JavaScript and jQuery, and integrated backend services with the front end ensuring data accuracy, security and scalability.
- Handled bug fixing, code optimization, enhancements and production support for live healthcare systems.
- Collaborated with QA, product and business teams to translate healthcare requirements into reliable technical solutions using Agile SDLC practices.

PROJECTS

HISTree – Hospital Information System / Hospital Management Software (Real-Time Company Project)

Product-based healthcare application developed at Triotree Technology Pvt. Ltd.

- **Tech Stack:** C#, ASP.NET, ASP.NET MVC, SQL Server, JavaScript, jQuery, HTML, CSS
